

*** National POLST Form NOTICE ***

The National POLST form is now approved for use in Virginia. While the Virginia POST form may still be used, transitioning to the National POLST form is recommended.

The National POLST Form is a portable medical order set. Health care professionals should complete this form only after a conversation with their patient or the patient's representative. The POLST decision-making process is for patients who are at risk for a life-threatening clinical event because they have a serious life-limiting medical condition, which may include advanced frailty (www.polst.org/guidance-appropriate-patients-pdf).

This form should be obtained from and completed with a health care professional. **It should not** be provided to patients or individuals to complete.

Virginia and the National POLST Form

- POLST is not valid until signed by a physician, nurse practitioner or physician assistant who has a bona fide relationship with the patient. See Code of Virginia §54.1-2957.02 and §54.1-2952.2 respectively for further information.
- Use of the original form is encouraged. A photocopy, fax, or electronic version should be honored as if it were an original.
- Other DNR forms continue to be recognized under Administrative Code of Virginia §12VAC5-66-10.
 Such forms include, but are not limited to the Virginia DDNR form/POST/MOST/POLST/MOLST/
 Approved DNR jewelry
- If "No CPR: Do Not Attempt Resuscitation" is checked in Section A, and patient has signed the form, no one has the authority to revoke consent for the DDNR order other than the patient as stated in the Code of Virginia §54.1-2987.1.
- If "Yes CPR: Attempt Resuscitation" is checked in Section A, a legally authorized decision maker may make changes to carry out the patient's preferences in light of the patient's changing condition.

Printing the National POLST Form

- Do not alter this form.
- Print BOTH pages as a double-sided form on a single sheet of paper.
- Printing on bright yellow paper is recommended by EMS and the Virginia POLST Collaborative but printing on white paper is acceptable.

Paper suggestion: 8.5 x 11, 23.36 M weight (cardstock), Lift-Off Lemon by Astrobrights

HIPAA PERMITS DISCLOSURE OF POLST ORDERS TO HEALTH CARE PROVIDERS AS NECESSARY FOR TREATMENT Medical Record # (Optional) SEND FORM WITH PATIENT WHENEVER TRANSFERRED OR DISCHARGED

National POLST Form: A Portable Medical Order

Health care providers should complete this form only after a conversation with their patient or the patient's representative. The POLST decision-making process is for patients who are at risk for a life-threatening clinical event because they have a serious life-limiting medical condition, which may include advanced frailty (www.polst.org/guidance-appropriate-patients-pdf).

Patient Information.	Having a POLS	Γ form is always volunta	ry.

	itation, including mechanical ventersion. (Requires choosing Full Tre		Do Not Attempt Resuscitation. pose any option in Section B)	
B. Initial Treatment Orders. Follows	ow these orders if patient has a	pulse and/or is breathing.		
Reassess and discuss interventions with patient or patient representative regularly to ensure treatments are meeting patient's care goals. Consider a time-trial of interventions based on goals and specific outcomes.				
Full Treatments (required if choose CPR in Section A). Goal: Attempt to sustain life by all medically effective means. Provide appropriate medical and surgical treatments as indicated to attempt to prolong life, including intensive care.				
Selective Treatments. Goal: Attempt to restore function while avoiding intensive care and resuscitation efforts (ventilator, defibrillation and cardioversion). May use non-invasive positive airway pressure, antibiotics and IV fluids as indicated. Avoid intensive care. Transfer to hospital if treatment needs cannot be met in current location.				
Comfort-focused Treatments. Goal: Maximize comfort through symptom management; allow natural death. Use oxygen, suction and manual treatment of airway obstruction as needed for comfort. Avoid treatments listed in full or select treatments unless consistent with comfort goal. Transfer to hospital only if comfort cannot be achieved in current setting.				
C. Additional Orders or Instruction	ons. These orders are in addition to [EMS protocols may limit emergence]

State law may limit patient representative authority to void. For health care providers: destroy patient copy (if possible), note in patient record form is voided and notify registries (if applicable). Additional Forms. Can be obtained by going to www.polst.org/form As permitted by law, this form may be added to a secure electronic registry so health care providers can find it. 						
 If a translated POLST form is used during conversation, attach the translation to the signed English form. Using a POLST form: Any incomplete section of POLST creates no presumption about patient's preferences for treatment. Provide standard of care. No defibrillator (including automated external defibrillators) or chest compressions should be used if "No CPR" is chosen. For all options, use medication by any appropriate route, positioning, wound care and other measures to relieve pain and suffering. Reviewing a POLST form: This form does not expire but should be reviewed whenever the patient: (1) is transferred from one care setting or level to another; (2) has a substantial change in health status; (3) changes primary provider; or (4) changes his/her treatment preferences or goals of care. Modifying a POLST form: This form cannot be modified. If changes are needed, void form and complete a new POLST form. Voiding a POLST form: If a patient or patient representative (for patients lacking capacity) wants to void the form: destroy paper form and contact patient's health care provider to void orders in patient's medical record (and POLST registry, if applicable). State law may limit patient representative authority to void. For health care providers: destroy patient copy (if possible), note in patient record form is voided and notify registries (if applicable). Additional Forms. Can be obtained by going to www.polst.org/form As permitted by law, this form may be added to a secure electronic registry so health care providers can find it.
